About Constellation Dealership:

Constellation Dealership Software group is a wholly-owned subsidiary of Constellation Software Inc. (TSX:CSU), a leading provider of software and services to a select group of public and private sector markets. We acquire, manage and build industry-specific software businesses, which provide specialized, mission-critical software solutions to address the particular needs of our customers.

Position Summary:

The successful Frontend Developer will work to deliver a complex enterprise-grade ERP solution with local and offshore colleagues. As a Frontend Developer at IDS, you have the chance to help develop a new product from the very early stages. We are looking for resources who thrive in a fast paced start-up like environment and want to invent the future.

Our team is looking for a Frontend Developer with React experience along with both front-end interfaces and back-end systems. You will play an instrumental role in defining the system architecture, own and implement specific components, and help shape the overall experience.

Qualifications:

- 3+ years of overall software development experience, with an emphasis on web applications
- 2+ years of experience working with React
- Experience as a member of a UI design team participating in the complete product development lifecycle of successfully launched applications
- Experience building rich data-driven web applications
- Experience building Mobile applications.
- Experience with modern web technologies and techniques such as HTML5, CSS3, ECMAScript 2016, CSS pre-processors (SASS, Less, Stylus), JavaScript transpilers (Babel, CoffeeScript, TypeScript), and JavaScript build tools (Browserify, WebPack, Grunt, Gulp)
- Experience with modern JavaScript frameworks and libraries such as React, Redux, Ractive, Ember, etc.
- Experience with Node.js and the NPM package ecosystem

Required Education

- Bachelor's degree in Computer Science or equivalent work experience
