

Lead Software Developer

Location: Markham, ON or Waterloo, ON

Direct Hire

About Constellation Dealership:

Constellation Dealership Software group is a wholly-owned subsidiary of Constellation Software Inc. (TSX:CSU), a leading provider of software and services to a select group of public and private sector markets. We acquire, manage and build industry-specific software businesses, which provide specialized, mission-critical software solutions to address the particular needs of our customers.

Position Summary

Working in conjunction with product managers, operations and quality assurance, you will leverage a breadth of technologies including object-oriented design and coding, databases, mobile devices, tablets, windows desktops. We are looking for a lead developer who will challenge themselves and others to constantly come up with innovative solutions, who not only know how to solve the problem, but who can help define the problems and direction and create value while pioneering new frontiers. You will be leading a team 70% of the time, hands on development 30%.

Qualifications:

- 3+ years proven leadership experience (in a lead or mentorship role), leading software developers
- 5+ years experience n-tier web app Enterprise applications (primarily C#, .NET)
- 3+ years experience in leading a development team in building complex software systems that have been successfully delivered to customers
- 5+ years working with modern web and mobile technologies
- Solid understanding of Agile (Scrum) methodologies
- Experience working closely with development, design and business teams to understand business requirements, assess risk, and communicate problem impact.
- Strong object-oriented design and “clean code” programming experience
- Experience mentoring software engineers to improve their skills, and make them more effective, productive software engineers
- Hands-on expertise in many disparate technologies, typically ranging from front-end user interfaces through to back-end systems and all points in between with a focus on .NET (WinForms, ASP.NET, Prism, API, .NET Core ...), JavaScript (React) and Database technologies (SQL/NoSQL)

Required Education

- BS/MS in Computer Science or related field.
