**Full Stack Software Developer**
**IDS, a Constellation Software Company**

IDS, Integrated Dealer Systems, is the leading provider of complete software solutions for RV, marine, and trailer dealerships.

## Position Summary

Working in conjunction with product managers, operations and quality assurance, you will leverage a breadth of technologies including object-oriented design and coding, databases, mobile devices, tablets, windows desktops. We are looking for a full-stack software developer who will challenge themselves and others to constantly come up with innovative solutions, who not only know how to solve the problem, but who can help define the problems and direction and create value while pioneering new frontiers.

## Qualifications:

- 3+ years' experience n-tier web app Enterprise applications (primarily C#, .NET)
- Solid understanding of Agile (Scrum) methodologies
- Experience working closely with development, design and business teams to understand business requirements, assess risk, and communicate problem impact.
- Strong object-oriented design and "clean code" programming experience in C#
- Hands-on expertise in many disparate technologies, typically ranging from front-end user interfaces through to back-end systems and all points in between with a focus on .NET (WinForms, ASP.NET, Prism, API, .NET Core …), JavaScript (React) and Database technologies (SQL/NoSQL)
- Strong competencies in data structures, algorithms and software design optimized for large-scale distributed software systems

## Required Education

- BS/MS in Computer Science or related field.

**Location:** can work out of our Markham, ON or Waterloo, ON office as required.
**Permanent, Direct Hire Opportunity**
