

## IT/Cloud Administrator

Constellation Dealership Software companies, Ideal, c-Systems and Charter, have developed the largest database of dealership transactional sales, inventory position and task completion information in the Outdoor Power Equipment (OPE) market.

### Position Summary:

The IT/Cloud Administrator will be part of a team that ensures our internal team and customers operate seamlessly and without interruption. This person will be part of an innovative team that proactively researches and implements solutions in a constantly changing environment

The goal is to blend the needs of our customers, our internal staff, while maintaining the uptime needs of our cloud hosting solution. The combination of creativity and discipline is critical for the role.

You must be analytically driven and a creative problem solver who knows how to function as a team, and collaborate across all areas of the organization.

This position reports to the Cloud Operations Manager and will be part of a globally diverse team.

### Experience/Skills include:

- Understanding of Windows Server
- 3+ years of Azure Cloud infrastructure experience with implementations, migrations, and upgrades
- Ability to design scalable, secure, reliable, and efficient technical cloud ecosystems to support enterprise applications
- Strong organizational and communication skills both written and verbal
- Azure Certification(s) would be a bonus
- Experience securing and monitoring ASP.Net web applications
- Experience securing and monitoring Microsoft SQL Server and Reporting Services
- Experience with Azure Active Directory
- On-call availability and willingness to work hours outside of a normal 9-5 type position when needed
- PowerShell scripting knowledge
- Excellent documentation skill
- Should have great customer service skills
- Very good understanding of Cloud IaaS

**Location:** Arlington, TX is preferred, but not mandatory

**Permanent, Direct Hire**
